Connection: This is a constant thing for the soul, and for nearly any physical being where a soul operates

Repeat Visits – 2017 03 July

"soul operates." As if we were a machine.

You are. Upon your return home you will understand this completely, although many humans can and do understand the human body as a mechanism or machinery.

Repeat Visits – 2017 03 July

Impartial analysis and understanding of intelligence are not possible. Intelligence is largely a function of culture.

Repeat Visits – 2017 03 July

Heat is the most common, as is well understood on Earth, and this is the output effect of the energies involved. Humans learned long, long ago how physical friction will cause heat, an increase in atomic vibration rate and activity. The manipulation of the forces which are heat, are the same that would allow fire to be halted.

All humans possess this ability, it is called mental power. The power of thought is the common example. You will likely say, no human can use the power of thought to stop a fire, to which we say, yes you can. Belief is the essential first step, the collective belief of a sufficient number of humans directed at the burning material will achieve it.

Channeling Erik Comments – 2017 04 July

The end of the existence of humans on Earth

The process has already begun.

The shift in energy, consciousness and awareness. Part of this process will be the lowered birth rate and shrink in human populations. The increase will continue for a decade or so, from this day, then begin to level off.

When does it end?

In about fifteen centuries of current Earth time calendarization.

The End of the World – 2017 10 July

Human physical bodies are going to evolve to a point where inter-dimensional existence will be common; this has already happened on Earth, with what are called sasquatch.

The End of the World – 2017 10 July

Magnetism: This is what powers the molten core, itself a large magnet. The field fluctuations are what provide the molten ferrous core with the energy. Heat results. Without this, the planet grows cold.

The End of the World – 2017 10 July

The inference that feelings, perceptions and emotions of one part of a human body, while the soul which - who - occupies it, remains alive, are simply a reflection of the soul, through that one part or portion.

The End of the World Comments – 2017 10 July

What is the point of our souls having these lives and experiences on earth?

To have the opportunity to ask a question such as this one.

What Is The Point – 2017 12 July

What is a soul's ultimate goal?

This assumes there exist time, deadlines, finishing lines, stages of completion thus incompleteness.

Your soul does not have a plan, which suggests an objective.

What Is The Point – 2017 12 July

You must revisit the true essence of your existence, because you cannot unbecome what you always are.

If sleep is avoided, life ends. You cannot unhook from yourself this way.

What Is The Point – 2017 12 July

It should mystify you more, that you return to the same place and point of your human life each day, on Earth. This is the artificial path, the created existence, the false image and the hope of illusion. What you call reality, is not. What is deemed surreal, is true. What is imagined, already exists, because it has been created.

What Is The Point – 2017 12 July

Belief is the strongest glue, the most solid bond and the toughest material in existence.

What Is The Point – 2017 12 July

Destiny, achievement, completion and finality are but the ending of stages the illusion of time create. Growth and expansion of awareness are where you go, always. It matters not what route is chosen or followed, these two things are inevitable.

What Is The Point – 2017 12 July

The review of what is done can highlight the spaces unfilled by experience you then set off again to have, so that you can fill them. Reincarnation and karma are these things called, but they neither operate nor exist, respectively, in the way the Earth perception teaches.

What Is The Point – 2017 12 July

There is no greenhouse gas on Earth, this term assumptive and incorrect in use. Gas cannot and does not act as a physical barrier to temperature transmission or convection as does a solid. This is what a greenhouse will create

Hot Stuff – 2017 21 July

Your golden green and blue and white planet and all the colors upon it, is a magnet. Your central star also.....Earth's magnetic atmosphere or magnetosphere, interacts with magnetism and other emissions from your sun, which affect Earth's core, itself ferrous. The core is composed of iron and steel, in liquid form because of the temperatures. This heat is regularly generated and as all of you know, heat rises against gravity.

Hot Stuff – 2017 21 July

Heat from Earth's core rises to the hard surface, the great majority of which is covered by oceans.....The extraction of oil and gas demonstrates there is no effect upon the subsurface temperatures of soil and rock by the surface temperatures from starlight, or as you call it sunlight

heating.

Indeed the surface of the Earth warms and cools with the arrival and departure of daylight; the accumulated heat dissipates each night completely. If there were any net retention, then atmospheric temperatures would have eons ago climbed to levels which make physical life on Earth impossible.

Hot Stuff – 2017 21 July

The equilibrium of gases in Earth's atmosphere, principally oxygen and carbon dioxide, was reached long ago and operates within a range of concentrations unaffected by human activity....This balance and equilibrium involves the growth and death of all vegetation on Earth, the amounts of gas from which far exceed anything humans could produce by the combustion of hydrocarbons.

Hot Stuff – 2017 21 July

When we send our words, they draw our energetic existence into your physical presence, precisely because we do not share the same parameters. This not only connects as would a radio signal, but also physically connects us to the place of a reader.

Hot Stuff Comments – 2017 21 July

What does Earth look like from Heaven?

You are already in Heaven, simply look around yourself.

Earth Look – 2017 24 July

Let's say one of you is not inside a human environment; what surrounds you?

Whatever we create or choose to see at that moment.

Earth Look – 2017 24 July

We almost always choose to see what you do, in the way you see your surroundings. To help understand your experience as you have it.

Earth Look – 2017 24 July

Is there a special reason for blindness?

Yes, to reveal to a human soul what the eyes cannot.

Earth Look – 2017 24 July

Channelling:

The process resembles learning to understand a language which isn't spoken. Information arrives mixed in with "your" thoughts; which already happens, typically considered a "hunch" or "it occurs to me that..." and so forth.

- Ever start out the door and suddenly "remember" something you meant to bring but forgot?
- Have an unexpected & quick insight into something?
- Suddenly got a strong feeling - positive or negative - about anything?
- Abruptly had the answer to a test question pop into your head?
- Get a strong feeling what's coming next, such as a blackjack card or something happening during a movie?

All examples of channeling.

Ask a question, wait for the answer. Something will seem to pop into your head and even if it surprises

you, the thought will make sense. Take driving for example; stopped at a red light with a specific destination in mind, ask your Guides, with your thoughts, if turning or continuing straight is faster. If you receive no answer - nothing pops into your head - then it doesn't make much difference. If a different route might save you a lot of time, the answer will seem to come from your own thoughts and pop into your head.

2 30 and 45 years Ago – 2017 25 July

There are no past lives unless the Earth timeline is superimposed. From the perspective of your soul, this superimposition cannot be made. The concept of a past life operates only where the past life is not accessible; the notion which creates the concept of a past life blocks access to the simultaneous life so labeled.

Soul Report – 2017 07 August

Crystals do not initiate good energy; they can enhance, spread, amplify and propagate what is wanted multiplied but they do little but adorn the exterior if the basic energy of belief and intent are not first in effect.

Soul Report – 2017 07 August

Injury or disease are not planned by a soul for life on Earth, are seen as a great bonus, a rare treat at experience which was not first included. You might believe this is hideous, given the horrible nature, effect and outcome of disease or injury and anyone thinking this, is right. For this reason they are a bonus

Soul Report – 2017 07 August

Compartmentalize time according to point of observation.

Compartment #1: Time on Earth is the effect of Earth's rotation. The sun rises and the angle of light (and shadows) indicate its passage. Analog clocks represent sundials. Digital clocks count cycles and pieces of them.

#2: Hover above Earth, allowing it to rotate beneath. The sun rises and sets for anybody on the surface but from a stationary point above, the sun is always in the same location. The Earth rotates twice below you. You are an alien ET visitor and have never visited. Do 48 hours pass for you?

#3: You are an energetic being; no physical body and you may go anywhere. Does time measured by planet rotation affect you?

The absence of a numbered sequence of cycles means no calendar or clock applies to you, and no relative comparisons BETWEEN numbered sequences eliminates planet surface time; measurement doesn't apply.

Physical wear & tear do not act upon what is not physically subject to such forces.

You travel by thought; if you can imagine a place, it is real. The process of imagining it creates the place. You may travel to any point and place along the numbered sequences, because none apply.

There is no time; no order, no sequence. No previous, no afterward. Everything is now; simply think of a location and you are there. Everything is now simultaneous.

On Earth we only allow ourselves the ability to see the course we have taken, not the alternatives. Thus we see the past as a line sequence of events extending back from where we are, and presume there is a similar line extending forward that we'll find out about, as soon as enough time passes to reach each point.

Soul Report Comments Patrick – 2017 07 August

The energetic being doesn't travel 100 years into the future - there IS NO FUTURE for an energetic being. There is FOR US, in the physical bodies on Earth. As soon as the house is imagined, it is created. The process need not be set in motion; do thoughts get constructed? Or just organized? In Heaven thoughts are reality immediately. On Earth thoughts lead to physical reality inside the delay which density creates and the illusion of time sunlight angles represent.

Soul Report Comments Patrick – 2017 07 August

The sum total, the cumulative effect of the individual positions, is what matters to the collective, and individual opinions and rights must always be heard and respected. Each individual, to value that personal authority, must espouse her or his position clearly and honestly and allow others the same.

Antonin Scalia – 2017 08 August

There will always be variations of ability and motivation in any group. Support for achievement sets an incentive for everyone within. Holding back progress for some because some others cannot keep such pace slows everyone. The more gifted produce an output which helps everyone.

Antonin Scalia – 2017 08 August

Consider the other point-of-view in detail, and at least twice as much as your own. This achieves two things; it leads to others' appreciation of your viewpoint and either reinforces your opinion or reveals flaws in your logic.

Antonin Scalia – 2017 08 August

Thoughts are always bell clear

Easily sent always near

Energy's better

The way water is wetter

Understanding erases all fear.

Laura 29/8/2017 20:28:57

Do u know what his response was when he (Trump) found out about the aliens?

Steve 30/8/2017 03:59:46

Laura, his response was "you're shitting me, do they need any casinos"?

Eclipse Aug 21 2017 Comments – 2017 22 August

Do not expect your ears or eyes to play a part. Do you understand your thoughts? Of course you do.....then recognize an abrupt one, which also happens. THAT is channeling.

Harvey Shift Comments – 2017 30 August

There is a "tipping point" and they say it is half. Once 50% of Earth's surface bound souls are aware enough, expected events will be derailed and replaced nearly completely,

They say this is highly unlikely, but always possible.

Harvey Shift Comments – 2017 30 August

Cooper 7/9/2017 18:11:03

and by the committee, I meant The Committee...

Patrick 7/9/2017 19:03:10

The Committee says "A capital offense pardoned. We do not care, humans spell and use punctuation. Your sentiments greatly appreciated nonetheless.

Channelling Block Comments – 2017 04 September

Channeling :

The Committee suggests writing thoughts after sending a question to your GAGs.

In them will be the response(s) which seem like your own thoughts. That's true, they are YOURS but their origin & source is NOT.

It doesn't matter, sit quietly, believe you can send questions with your thoughts. Write the answers, whatever comes to you. There is no wrong "answer", write down what occurs to you, whatever it is.....

Take a short break before reading what you wrote. It does not matter if you are sure it's all "your" thoughts. Keep doing it daily.

At some point - different for everyone, neither set nor expect a standard of performance (there's no exam or scheduled date) - the channeled information will emerge. This will fuel enthusiasm for the process; keep going.

You will discover you no longer need to write then read to separate own thoughts from incoming.

Sorting & sifting can be done mentally. Soon after, you'll no longer sift, as incoming will be as obvious as listening to speech & speaking yourself.

We are the architects of our own fate

Using blueprints and schematics

To restore humanity to greatness

Greatly assisted by our Guardians and Guides

We are limitless, infinite

We've opened our eyes

AE: Humans have evolved away from barter and long term consideration of value, independent of money. This will return in a big way on Earth, and often abruptly, and there will be social convulsion among many of you who have attached their notions of self worth and esteem to bank account balances

Do you spend long periods near Earth?

AE: No, we come and go as we choose, often staying for no more than a day or two of your time. We reach Earth or return home in just a few hours of your time. Two days watching Earth is a day trip for us.

Puerto Rico is nicknamed the Isle of Enchantment....There is something about the place I cannot describe, a feeling or sensation, which makes sense.

The Hurricane Triangle – 2017 28 September

Bermuda Triangle: The remnants of these devices remain below what is now the ocean floor, and

continue to re-energize. When they discharge, such release of stored power is set off by things such as sunspots, causing effects which have ensnared passing sea and aircraft.

The Hurricane Triangle – 2017 28 September

The Sirians, Arcturans and Pleidians are among the more developed civilizations of the galaxy. They have long since explained to other visitors, where such materials (gold, platinum, copper) can be found on planets where no large population of living beings would be disturbed. They also possess the ability to halt any scavenger visitors from attempting it.

The Hurricane Triangle – 2017 28 September

The purpose of the creation of the first humanoids was as you ask, physical work. The reasons were atmospheric, principally. The ability to exert force, employ physical strength yet maintain proper body temperature and dissolved respiratory gas was very difficult for the visitors.

The Hurricane Triangle – 2017 28 September

The alien extraterrestrials that created the first humanoids had several abilities related to genetic coding; they could mix, extract, modify and create. Humans see mixture as viable process but do not yet know, as humans once did, how to extract existing portions or to create.

The Origins of Humans – 2017 02 October

The physical form of the first humanoids was not mostly a resemblance to the ET creators; that came to pass with subsequent upgrades or modifications.

The Origins of Humans – 2017 02 October

Social considerations did not exist, thus approach towards a mate was as often initiated by the female as the male, and the expression of the desire, affection, and lust as part of the reproductive process was as varied among females as males.

The Origins of Humans – 2017 02 October

The beginnings of mankind were much like a humanoid drone, programmed to learn but without knowledge beyond the basic requirements called instinct. The alien ET creators knew there would be willing soul occupants, ready to assist in the experiment.

The Origins of Humans – 2017 02 October

There was no spoken or written language for the first humanoids, those developed slowly and by humanity's own actions. Telepathic communication WAS the way the first humanoids communicated with their creator masters.

The Origins of Humans Comments Patrick – 2017 02 October

SP: Here you have asked me not to be Stephen Paddock, which is easy because that life is over and I am no longer the person pulling the trigger or the person who led up to those moments.

Humans have to stop teaching one another that killing other people is a solution. Babies are not born with an innate drive to kill, the way cats will hunt or dogs will bark.

Stephen Paddock – 2017 05 October

I wrote this mass killing into my life plan as an option, but I did not make it a scheduled, required event. Because I carried it out as Paddock and as planned, in other words, I exercised the option, I feel satisfaction from having achieved a life plan item. This is always considered a great accomplishment because of risk, choice and many factors. Along with satisfaction, I feel great remorse. I am dead and

alive in Heaven, along with dozens, by my actions. We are all affected in similar ways and we all have a view of the effects on all of the people we know. This is the source of my remorse.

Stephen Paddock – 2017 05 October

The inability to return to the same life is more a concern of the living who remain on Earth, than the returning or remaining-in-Heaven soul.

Supernatural repair is often possible however doing so distorts the human rules of the process, the limits, constraints and conditions of incarnation all souls accept before doing so.

Stephen Paddock Comments The Committee – 2017 05 October

We battle many wars

Is there no end in sight?

I am ready I am strong

This war is mine and only

During which I used my many faces

Killer

Enemy

Predator

Prey

Victim

Terrorist

Fool

Mud under my shoes

Mud beneath my feet

Stephen Paddock Comments Jules – 2017 05 October

The gun ownership rate, difficult to measure precisely, didn't match the gun violence.

It never does. The focus on guns is too easy an explanation. The solution is belonging.

The solution to gun violence or drug overdose?

Both and most crime.

Why?

Users and perpetrators see less loss from use or participation. The human who feels connected to and part of a group whose members accept, like, support and encourage their fellow members, such as in families, are much less willing to risk losing the group. Criminal gangs operate the same way, encouraging and supporting certain acts in return for acceptance and a sense of belonging.

Drug Abuse – 2017 11 October

The addicted person must discover a place where s/he is accepted and belongs. This is achieved well during what humans have called drug rehabilitation however once the former addict exits this process, does a sense of belonging remain or depart? This is the challenge, to find personal peace through acceptance. To feel accepted, then return acceptance to others who have felt outcast in some or several ways.

Drug Abuse – 2017 11 October

Simple removal of prohibitions would lower use and abuse slightly. The greater reduction of substance abuse to the point where mental capacities are not affected, will occur when a generally improved sense of belonging and society flourish anew.

Drug Abuse – 2017 11 October

Communication is shared, including emotions, both of these physical sensations. They belong entirely and exclusively to the body the soul occupies, and this sole ownership is one of many aspects which make human life so unique, valuable and endearing to all our souls.

Guardian Angel Incarnation – 2017 30 October

If the current life and others could be intermixed, compared and altered at will, with & because of that information, then life on Earth would not be worth pursuing as it is now lived, and would not be attempted or undertaken.

JFK – 2017 02 November

You are not less developed when incarnating, however you are artificially separated from all aspects of yourself, to a point where you feel as if the completeness of your soul is the hoax, the artificial thing. Once in this position, you are prepared to explore opportunities the completeness of your soul cannot.

Human Development Levels – 2017 08 November

Earth is an opportunity for experience. What is presented thus learned is up to the learner teacher, for s/he is one and the same together.

Human Development Levels – 2017 08 November

Had the killer, understood that he cannot die and cannot escape the consequences, he would never have thought his actions might represent an incentive. There would be no gain, he would not perceive this to be possible.

Human Development Levels – 2017 08 November

Eliminate the illusion of scarcity.

Lower expectations, accept seeing but not having availability. Many humans do, but not all. Envy flares up from this, created by a taught set of emotions that having is equivalent to being.

Human Development Levels – 2017 08 November

Your existence is not a series of intervals passed as you wait to incarnate. It cannot be; there exists no time for your soul thus no sequence of segments.

Post Past Review – 2017 10 November

The life plan can be inserted anywhere along the timeline to achieve the purpose you intend.

Post Past Review – 2017 10 November

Life overall is taken more seriously, from the place of your soul. The events within are seen as less significant, less traumatic, less euphoric and less intense. The extremity of sensation is one of the main reasons you incarnate.

Earth life: "The gain of knowledge and experience is a purpose unto itself. It is not a tool, or information to be applied in pursuit of another objective, goal or achievement. To have and own experience IS the goal."

Post Past Review Comments– 2017 10 November

Mind altering drugs : These are really brain altering drugs, much as corrosion in a radio transmitter's circuits is not the radio signal content sent or received. Humans confuse, because of the physical body perception, that a mental behavioral issue is of the mind. The mind is not the brain.

Connecting mental Health– 2017 13 November

No troubled soul incarnates. It would be possible, however no soul so distorted in function considers incarnation.

Connecting mental Health– 2017 13 November

The attraction to a mind altering substance is the way it helps disconnect or unhook the soul from the brain and the human ideas which the human prefers become different, what s/he prefers be changed. Humans do this with meditation, also.

Connecting mental Health– 2017 13 November

The way to improve and build stronger connections to spirit is simply to believe it is possible, which requires a belief there indeed are such energies, unseen by human eyes, surrounding spirits and energetic beings.

Connecting mental Health– 2017 13 November

Mental health treatment specialists can best and most easily suggest to a person whom they hope to help - or treat, as would be said - to consider the expanded connection to an energetic being.

Connecting mental Health– 2017 13 November

"I wish I knew in advance where I'd pass away, so I would never go there."

Why can't we know?

It delays or postpones along the Earth timeline. No human lives forever because no soul wants to. If the location scheduled is avoided, a new location is chosen.

Pre Post (P)review– 2017 13 November

Only physical bodies require physical bodies. In reality, they are optional to life and only a temporary, suggested item for living the experience Earth can offer.

Pre Post (P)review– 2017 13 November

The planner of a mass murder sends loud, unmistakable signals which reverberate throughout mankind and all of the GAGs who accompany the billions who come under the news such event approaches. The very few who have scheduled their presence, as one of the several exit points from life all of you

always include, can then confirm their reservation or cancel it.

Pre Post (P)review– 2017 13 November

The soul departs the body shortly before impact and has no sensation of it. Since death of the body was planned, no purpose is served by passing through the experience.

Pre Post (P)review– 2017 13 November

As mankind develops, there will be less of these declining deaths, when human belief in the existence of a permanent soul is more accepted.

We refer to cancer and other such progressive, degenerative conditions

Pre Post (P)review– 2017 13 November

What is called often "free will", the authority and autonomy to make decisions, operates the same for a soul without importance to where the soul, the energetic being, might be.

Interviewing an Earthbound Spirit– 2017 18 November

We ask that dimensions be compared to radio frequencies and bands, such as frequency modulation or amplitude modulation.

Interviewing an Earthbound Spirit– 2017 18 November

A soul who chooses to remain on or close to the denser vibrations,..... is simply tuning in to the band the soul used when incarnated

Interviewing an Earthbound Spirit– 2017 18 November

What's the pleasure part?

ES: Taking life ending risks, like riding a motorcycle at twice the speed limit and crashing. Can't die, you just tumble, get up, instantly fix the motorcycle and keep going. Like real life video games.

It's possible to manifest things?

ES: Of course, just like Heaven and just like humans can but don't know is possible.

Interviewing an Earthbound Spirit– 2017 18 November

Humans have the idea spirits should move on....

ES: Humans have lots of ideas.

Interviewing an Earthbound Spirit– 2017 18 November

Do you eventually move along and forget about Earth?

ES: Nobody ever forgets about Earth, if they even know about it. No soul ever forgets about anything they're aware of.

Interviewing an Earthbound Spirit– 2017 18 November

Are there confused spirits?

ES: Yes, just like with any group of humans.

Interviewing an Earthbound Spirit– 2017 18 November

Can you split your soul and be in two or three places at once?

ES: Yes, if I wanted to. Like you could date pigs, if you wanted to but you probably wouldn't. Or would you? Keep that to yourself.

Interviewing an Earthbound Spirit– 2017 18 November

Who might kick you out?

ES: Some big ass Archangel, who thinks I'm too much of a disturbance to be left hangin' around.
Interviewing an Earthbound Spirit– 2017 18 November

Archangels are the support staff of mankind, the understructure and foundations. They have the role of coordination and organization when conflicts, discrepancies and incongruence occur. They are the safety valve of human will.

Archangels– 2017 28 November

Why does an archangel have to make the choice?

Authority. Your Guardians and Guides have limited ability to affect the life agreements and courses of other souls, just as others are limited in their ability to affect yours.

Archangels– 2017 28 November

Angels work with one or several souls, with the authority the soul or souls grant them or, more often the authority an angel is prepared to accept.....Archangels come as required.

Archangels– 2017 28 November

You come to mankind and live as a human from the realm of energetic beings, which is your essence and true, natural existence.

"This is permanent, forever and has always existed. You choose to be part of a universe and while it exists you remain a part. You may remain the energetic being you naturally are, you may choose a physical life in many ways and forms and if you desire, you may switch universes. When this is done, the prior universe is lost for you; if any project you have undertaken remains incomplete, that effort is wasted and lost permanently.

Barbecue Source– 2017 29 November

"Why is the commitment to a universe required and activity there lost if left unfinished? Because this is the nature of a universe, to pass through cycles of development, expansion, collapse then rebirth. If you do not remain a part of the development and expansion to the outer limit of the plan, you cannot be reborn into the subsequent cycle.

"You cannot add a higher floor to a building until the lower levels are complete and ready to support it. Physical gravity is the manifestation of the structure of the universe.

"Source as humans use this word refers to your beginning and ending in both this universe and all universes, which have been, are and will come.

Barbecue Source– 2017 29 November

"Consciousness, individually and collectively, all derives from this same place, because all of you create this place. The universes, galaxies, stars, planets and all things in each of them are your collective creation to explore, develop and know individually. For the greater benefit of all is built upon the greater benefit of one.

Barbecue Source– 2017 29 November

"Why is there source? Why is there the one? This question is backwards; why are there parts, pieces and places different? Because you and I and we have made them. We can all unmake them. We can eliminate the universes all together and all at once, if we choose as a group. We as a group created the universes, each of which contains all there is, temporarily separated from the whole to allow separate courses of development.

Barbecue Source– 2017 29 November

"You have chosen to incarnate, as you read these words so you are among the bravest and most adventurous of energetic beings. The many of us look around, examine, visit, experience and test the many things set into creation, change and development in the galaxy. The minority seek to experiment, to take the dark plunge into chance, hazard, pleasure, gain, loss and hope which the limits of physical life offer.

Barbecue Source– 2017 29 November

"You exist here to visit the differences.

Barbecue Source– 2017 29 November

"When can you go to this source? You are there now. You have just spoken with God and discovered, God is you. By your reading you have listened, thus spoken.

Nearly all souls returning to Heaven through this manner (mass killing) come to greet and meet all other souls, perpetrators, victims and all actors, even the many still alive represented in proxy as they dream.

Bang Crash Boom– 2017 30 November

Erik - When we start to become enlightened, when we really focus on self-love and compassion, when we focus on getting into that 4th dimension, in connecting to Source, connecting to ourselves, connecting to our Higher Selves, then more and more people will live in a state of peace, will live in a state of balance within the universe and will just focus on the positivity of life, on what the positive aspects of living on Earth as a human being are.

New World Shadow Government Order– 2017 6 December

Erik - People think that we need to fight them; people think that we need to attack them and in some way eliminate them, but what we need to do is exactly what they don't want us to do, which is to think for ourselves, to spread that word, to stop being drawn into their little games that they're playing with us. Stop watching the news, stop watching the media.

New World Shadow Government Order– 2017 6 December

Erik - Think for yourself, love yourself and start creating your own universe.

New World Shadow Government Order– 2017 6 December

Erik - The solution is *us*. We need to teach our children the right way about the world, about equality, about taking care of each other

New World Shadow Government Order– 2017 6 December

Erik - What we need to do is teach our children to become enlightened beings, become mindful, become compassionate and that needs to be integrated into their way of thinking.

New World Shadow Government Order– 2017 6 December

Erik - Anything you do with *passion* will give you financial stability. It *will lead* to financial stability if you do it with your whole heart, if you believe in yourself, it will always lead to you feeling abundant in life.

1. Alien ET Information

C: Contact with alien ETs is concealed because if revealed, the information exchanged would also require revelation. To achieve the second, the first is done also despite not being the objective.

Q: The information, if put into practice, would erode government authority, power and influence. Why is that resisted if such knowledge leads to material improvements?

C: Do you want to lose your job, career and reason to exit your front door on a regular, or daily basis? This is what is perceived by holders of government authority.

New World Shadow Government Order– 2017 6 December

3. JFK

Q: The decision to release alien ET encounter information was not the sole motivation to assassinate JFK?

C: No, it was only a part but it represented a greater concern; inability to control the president of the USA.

New World Shadow Government Order– 2017 6 December

4. Cancer

Q: Why food and disease?

C: Food and sales are the motivation, the regular and continued consumption of many food ingredients leads to the cancer. These ingredients also help ongoing sales. Diet carbonated beverages are an example.

New World Shadow Government Order– 2017 6 December

8. Syria

Q: Why give Syrians money to buy weapons?

C: Eliminate as many would-be refugees and terrorists as possible, and curry favor with other nations whose companies manufacture the weapons. The terrorist is the soldier fighter, in almost all cases. Once the failure of the conflict becomes apparent, this soldier flees the region as becomes a refugee.

New World Shadow Government Order– 2017 6 December

10. Power & Control

C: Do not participate in an election then watch the effects. Ignore the political machinations and allow what is manipulated to happen, and simply abstain from the next election also. By the third mass absence of voters, the established political order will fall onto such chaos, they will nearly completely eliminate themselves as a public institution

New World Shadow Government Order– 2017 6 December

11. Big Bank

Q: This is US Federal Reserve?

C: Yes, and also the Eurozone Monetary Authority and many other smaller such entities, coordinated by the larger ones. Essentially the Bank of England, European Monetary Authority and the US Federal Reserve act as one, but the ultimate power is the US Federal Reserve and its agent the US Treasury.

New World Shadow Government Order– 2017 6 December

12. Oppression

Q: Do Americans really have the ability to provide armed resistance to such groups?

C: No, because of lack of coordination. Racial and ethnic division is a benefit to an overbearing government, it makes setting one group against another much easier. The latest group to fall victim to this is that of immigrants and illegal aliens from Latin America, inside the USA.....

The risk to a government is the public outcry, so troublemakers are rounded up individually and quietly.

New World Shadow Government Order– 2017 6 December

13. Human evolution

C: The answer is simple; find the person, organization, politician, entertainer or celebrity who provokes the strongest negative emotion in you.....Set aside dislike, disdain and derision; these may remain however look at this person as if s/he were your neighbor. Give this some thought. Move on to the next person disliked.

If this process were done with regularity, the world would be changed in short order, and many perceived problems would not be simply solved, they would disappear.

New World Shadow Government Order– 2017 6 December

14. Trump

Q: What is Trump off about?

C: He sees the United Nations as a debating society hostile to American advancement, interest and progress, made up of many nations who would like to see the USA taken down a notch which might allow some of those many nations to rise.....The UN represents a platform for cooperation and world advancement.....The USA is in the ideal position to lead this. In one way Trump is accurate, and specified this in a speech to the United Nations. He stated that the USA will pursue its interests and that other nations should pursue theirs also. This can happen with cooperation, and implies that no one nation should interfere with the interests of another.

New World Shadow Government Order– 2017 6 December

15. Dissonance

Q: What does this mean in practice, how is it achieved?

C: Consider the worst thing a coordinated effort at oppression might do. Then examine your reaction, and the collective reaction of everyone affected or observing. Do not react the natural, expected way. Either ignore the oppression or react in a way entirely unexpected.

New World Shadow Government Order– 2017 6 December

16. Alien ETs

Q: Afraid of us? Really?

C: Yes, but not literally.....The concern is mass use of nuclear weapons.

New World Shadow Government Order– 2017 6 December

17. Elected Spies

C: About one third of the elected officials at national levels are such elected infiltrators.

New World Shadow Government Order– 2017 6 December

20. Solutions

C: Following a person's passion will always bring about well being, including financial. The idea a vocation which provides a practical, regular source of money is necessary fits with central authority ideas, the people who benefit principally.

Q: How do we teach these ideas?

C: By example; parents must encourage their children to disagree with them.

This encourages an exchange of ideas no central authority can crack, influence or eventually control.

The world governments will come about when mankind understands its place in the galaxy and stellar neighborhood and accepts the benefits such governing arrangements have achieved on many other worlds.

New World Shadow Government Order Comments Pierluigi– 2017 6 December

Who of the established Founders, Thomas Jefferson, John Adams, George Washington, Alexander Hamilton, James Madison to name the primary ones, were you closest to from a soul standpoint?

AB: All of them, as souls

Aaron Burr– 2017 12 December

Was there ever a planned possibility that Hamilton killed you [instead]?

AB: Yes, that was the plan.

Aaron Burr– 2017 12 December

RQ: What is the soul level relationship between you and Hamilton then and now?

AB: There is no then and now, from the point and place of our souls alone. We are the closest of the close.

Aaron Burr– 2017 12 December

RQ: What previous lifetime on planet earth most influenced the AB life?

AB: This speaks to the illusion of time, which does not apply where I am, not a part of the illusion. To look upon lives completed chronologically on the human calendar, none. Aaron Burr was not a product of any of them.

Aaron Burr– 2017 12 December

RQ: Have you reincarnated since that Aaron Burr lifetime?

AB: Yes, but into chronological time spaces prior to the late eighteenth century. You will ask, can a subsequent life take place prior to but come after? Where there is no time, the order in which things are done and the human calendar need not match.

Aaron Burr– 2017 12 December

AB:I will say: government is too large and will shrink. It can be shrunk gently without much pain or it can be shrunk abruptly with great chaos. The chaos is the far more likely route

Aaron Burr– 2017 12 December

Earth's core is liquid, The heavy steel and iron content, principally steel, interacts with the sun's magnetic field or solar wind through Earth's own magnetism. This causes movement of the liquid,..... The convulsions which result throughout the harder and solid materials above the liquid core are one source of the hum. The other and principal source is the magnetic frequency or oscillation.

The Humming Earth– 2017 13 December

You understand us humans.

We are you, but without the body. You are us, but temporarily with a physical body. That is not such a great difference, large as that seems while you are in the body.

The Humming Earth– 2017 13 December

How do y'all play in Heaven?

Our particular group, which includes us your guides, greatly enjoys hide & seek and also, travel through cities on Earth. We masquerade as a human apparition and travel through many cities on Earth in different times and alternate realities, what seem to be the strange combinations of places and things you often remember from your own dreams.

The Humming Earth– 2017 13 December

Humor never hurts but a cracked rib. The ideal frequencies are achieved by mood and intent; choose to be happy, funny, gay and merry with the subject at hand, and the good frequency will come about and synchronize automatically. Intentions are what control them.

The Humming Earth Comments The Committee– 2017 13 December

It is not difficult to construct a device which can read thought patterns. It is conceptually similar to a radio transmitter or receiver, but more simple. The complication is accepting the idea of brainwave transmission (telepathy).

In 2017 Review– 2017 16 December

The anti-gravity device:

The concept is the same as noise cancellation or blocking of electromagnetic, or radio, transmissions. A reverse force field is generated and cancels the effect of gravity and centrifugal forces.

In 2017 Review– 2017 16 December

How is this done?

C: False mass.

Q: Nothing like an impostor priest?

In 2017 Review– 2017 16 December

You are your own governing body; YOU determine which laws of the heart, psyche and soul will be in effect in the kingdom of your soul, where you are ruler supreme.

Payment is simple, but like all payments, it is a two direction transaction. Just as physical value must be sent (way #1) and received (way #2) so must forgiveness and apology cross from B to A, and A to B.

Eathquake in LA, April 2018

4. The schedule? This event is scheduled however that range of dates is not absolute. If it does not occur in the month of March, that does not mean it will not occur. If it occurs earlier than March of 2018, then what will be thought of schedules and predictions?

The people who didn't vote the way you like? They didn't do it to make you unhappy so...put your unhappiness to one side a little, because when you get what you like, they have to do the same thing.

What Is The Matter with Earth Erik – 2017 23 December

Disagreement does not equal an absence of harmony. To the contrary, consistent & continuous agreement is a lack of harmony. It means honest expression is being stifled.

What Is The Matter with Earth Comments Patrick – 2017 23 December

You are God as much as any soul; your vote counts the same as all others..... So damning something in the name of God is damnation by, of and to yourself if you intend something negative on another person or thing.

Dos Mil Diecisiete– 2017 24 December

Terrorism : The direct effect is not the immediate goal; widespread anger and fear which result are the objective.

I thought about asking the group if they would like to do a group grounding to send love to the planet. "It will send a great power of benefit and stability through Earth, because it is rarely and not regularly done....we suggest no more than ten to fifteen seconds of thinking your goodwill through your feet into

Earth, simultaneously.

How? Turn your mind to Earth. Think goodwill and benefit for her and all things upon it.

All creation exists because of imagination. The issue is access, not existence ...You are a time traveler all of you..... a time traveler with a physical body.

Potpourri or 8 Questions– 2017 28 December

What are the reasons that any use to nuclear weapon is prohibited?

....it would cause a great disturbance and pain across the galaxy and universe.Human have learned to burn down their rented home. The landlord has other plans.....It would screw with the souls and energies of the galaxy and universe to such degree that it will not be allowed.This control, power, is in the hands of your Guardian Angels and Guides, individually and collectively. This power has been given to each soul's guardians and guides by that soul before incarnation.

Potpourri or 8 Questions– 2017 28 December

The fourth dimension is time as its essential element, however time operates either differently or not at all, within it. Time can be compressed, elongated, realigned and rearranged or simply set aside to not matter. The fifth dimension is the absence of time and physical density unless chosen to be experienced or influenced, briefly according to the time in effect, in the fourth dimension for a segment or interval only time can define, or the third and below, where it reigns supreme for all beings awake.

Potpourri or 8 Questions– 2017 28 December

The fifth dimension is therefore, a concept of location. You are located everywhere in the fifth dimension. The fourth dimension maintains a location separation but removes the physicality of the third, second and first dimensions believed by its occupants to be the outer limit of existence. This outer limit is simply a frontier, traversed each time you sleep.

Potpourri or 8 Questions– 2017 28 December

Auras are almost always multicolored. Unicolor is rare and temporary..... Intensity of the aura is however changed based upon the activity, engagement and movement of the soul.

Potpourri or 8 Questions– 2017 28 December

The mental dysfunction results from the prolonged imprisonment of the mind in the brain.....The conditions and brain chemicals detected, including brainwave activity, are not causes but effects of the soul's need to escape the body. The brain will eventually shut down and the soul will be released.

Potpourri or 8 Questions– 2017 28 December

For a serial killer ...for a rapist

There is consultation with the Guardians and Guides of all souls planning to be involved.
Potpourri or 8 Questions– 2017 28 December

Everything is not pre-destined, or decided in advance. What is often decided is to leave large series of events and experiences open, for the decision and outcome to be made as the human passes through the phase. It is pre-destined to be undecided until the opportunity to decide presents.
Potpourri or 8 Questions– 2017 28 December

All incarnated souls have issued life plan invitations and received them also, and have the faculty to agree, make a counteroffer or counter suggestion, or not participate. There is no power in the universe which may force things otherwise. All angelic intervention into human events occurs by and with the blessing of the participating humans. There is no exception to this universal spiritual law.
Potpourri or 8 Questions– 2017 28 December

The Shift ramps up; you are already well into it. It will be defined by obvious large events which affect a great many humans or if no effect is extended, the news and reaction to that information will spread far and wide.
