

# Notes And Quotes

July to December - 2018

*What is your job?*

**Assist humanity. This can and is done in many different ways, as the circumstances suggest. I most often help by offering a perspective to other Guardian Angels, who ask me for an opinion.**

ArchAngel Michael – 2018 07 July

**True power is voluntary acceptance.**

ArchAngel Michael – 2018 07 July

**Lucifer, who is not the evil entity humans have painted "him" to be.**

ArchAngel Michael – 2018 07 July

*How do you respond if someone prays to you?*

**M: I answer.**

*8. How do we know it's you?*

**M: Trust yourself, to then trust me.**

ArchAngel Michael – 2018 07 July

*Why are so many women believing they are a AA wife about to have a baby and need to ascend quickly?*

**M: The human urge of motherhood combined with the attraction to the ideal male personality for a mate and father.**

ArchAngel Michael – 2018 07 July

**As a human you are not present in the fourth or fifth dimensions. There are three in general, you occupy the first, other physical beings occupy the second and non-physical occupy the third.**

**First dimension also known as third dimension = 3 (d w h) = humans perceive (d w h)**

**Second dimensions also known as the fourth dimension = 3 (d w h) some extraterrestrials**

**Third dimension also know as the fifth dimension = 3 (l w h) all souls**

**d=distance, w=width, h=height, l=location**

ArchAngel Michael – 2018 07 July

*The Flying Spaghetti Monster isn't a thing ... or is it?*

**We laugh out loud and order spaghetti, with meatballs. Anything imagined, exists. How much it exists independently or in the human imagination or solely inside the human thought, are different things.**

Good Reader Questions – 2018 08 July

**Everything vibrates, from atoms and their subatomic particle components up to the largest object you can imagine.**

Good Reader Questions – 2018 08 July

**When you raise your vibration, it simply means you employ what YOU believe to be a nobler, benevolent and caring thought.....You can and should defend and protect yourself but you can, may and even should also have benevolent thoughts for that person and his soul. We do not say**

**her soul, for so few human females do this.**

Good Reader Questions – 2018 08 July

**Science and spirituality are the same thing.**

Good Reader Questions – 2018 08 July

*Shouldn't those guys (Extraterrestrials) be non-physical to our layer of reality given that we can't interact unless the creature intentionally lowers the frequency of its body to bleed into layer number one?*

**Correct**

Good Reader Questions – 2018 08 July

**Humans, the species called *homo sapiens* in biology or anthropology, are not evolved or descended from animal species which existed on Earth before approximately one thousand centuries ago. *Homo habilis* and *homo erectus* are these first humanoids. Cro-Magnon and Neanderthal are other modern human names for them.**

More ET Q – 2018 10 July

**The civilizations from the planets which revolve around the stars we have named Canopus, Arcturus, Sirius and the Pleiades cluster are the main "culprits" or contributors (DNA). The remaining ones we have no names for, they are not the "A" team or front line observers, protectors and custodians of Earth. They are from our star cluster, the immediate area out to about 250 light years surrounding Earth, all members of the regional coalition, conference or federation.**

More ET Q – 2018 10 July

*What physical, mental, and emotional traits did they seek to engineer in humans?*

**Changes to skull shape, brain size and nervous system and to include the adaptability to the wide variety of Earth climates and environments. This involves the ability for hair, skin, features and size to adapt to the environments. Tall for flat lands, shorter for mountainous, darker skin for more sun, etc.**

More ET Q – 2018 10 July

*The Roswell [New Mexico, USA] incident.*

**The Committee says, late 1930s in the reported location. They're not giving me a specific year, they say we will enjoy opening that gift ourselves as we open the hidden files humans are told do not exist.**

More ET Q – 2018 10 July

*You mention that one activity is creating and reading/consuming literature. How is this literature composed?*

**The same way we do it, with their - or our - imaginations.**

*Does it take different forms, and what kind?*

**Yes, video novels are common. What we call movies, but they are a combination of written and visual and also telepathic components. Remember, our alien ET cousins are telepathic communicators.**

More ET Q – 2018 10 July

**Most civilizations do not reproduce the way humans do, so the races is different and enjoyment**

**cannot be compared between them. Just as we cannot say if this is the same for most Earth animals, who generally dedicate less time to reproduction or even courtship. The difference with humans is emotion and expression, and this is heightened quite a bit among many ET civilizations.**

More ET Q – 2018 10 July

**Urban areas protection: The force fields are electromagnetic barriers, which disrupt the chemical compounds or bodily components in the bodies of specific creatures, but do not affect others with different chemicals or amounts.**

More ET Q – 2018 10 July

**Nearly everything alive on Earth is evolved from and a descendant of something planted or seeded here.**

More ET Q – 2018 10 July

**The moringa (Morena) plant (Mothman) however the plant they brought is not an analgesic, but rather a super-nutrient rich food for repair and restoration.**

More ET Q – 2018 10 July Comments Patrick

**The creation was very much function over form. The alien extraterrestrial visitors who created humanoids looked nothing like either any current humans, or early humanoids before current humans, not any of you then a thousand centuries ago, or now. Appearance was not a care or consideration.**

Reader Q & A Human Origin– 2018 11 July

*Is the "migration out of Africa" theory of humans wrong?*

**No.**

Reader Q & A Human Origin– 2018 11 July

**No mental limitations were structurally installed. Telepathic ability was also unaffected, humans have learned speech and writing and steadily set aside telepathic ability, which is a latent talent**

Reader Q & A Human Origin– 2018 11 July

**There is no guarantee offspring will resemble their biological parents or grandparents, this is an effect and result of the hybridization process of including DNA from a dozen or more races. Bear in mind always, appearance and preferences are the result of habit among humans. The creation and later upgrades were function based, with little regard for form, shape or appearance.**

Reader Q & A Human Origin– 2018 11 July

*On other ET planets, are there ETs which have evolved from plants but have abilities to move, have intelligence and are self-aware?*

**Yes.**

Reader Q & A Human Origin– 2018 11 July

*Music and songs...are these universal among the ETs?*

**Universal among non-physical beings, i.e. among our souls. The existence among physical beings is simply the soul manifesting what it always has, likes and does anyway, where no physical body is involved.**

Reader Q & A Human Origin– 2018 11 July

***Are there ETs and non-physical beings which are involved in the creation / constructions of planets and solar systems etc.?***

**Yes.**

Reader Q & A Human Origin– 2018 11 July

**The smallest intelligent physical beings reach a mature size of approximately human children of age three to five.**

Reader Q & A Human Origin– 2018 11 July

***Did the Big Bang actually happen? And was there anything before the Big Bang?***

**Yes to both. You have more questions about this? Please offer & ask them.**

Reader Q & A Human Origin– 2018 11 July

***Australopithecus:***

**It is another variation of initial alien ET created humanoid and the timeline to which you refer is wildly inaccurate and far too long in the past of Earth timelines.**

**Australopithecines: Entirely created by alien ET visitors. They are not the product of evolution.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

**The DNA mixture, modification and design changes were made in two ways; one to adapt the newly-to-be created beings to the environment by altering the DNA structure and latticework, to include the traits necessary for certain size, strength, stamina in the environmental conditions.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

**Humans have today identified variations and deemed them species, when race is a far better description, in current human language use.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

***Cro Magnons and Neanderthals are generally regarded as two totally different species within the genus Homo--and they were by no means the only hominin species present on earth 100,000 years ago.***

**Yes, they were the only humanoid species and they are two versions of the same process. A**

**Chevrolet and a Pontiac.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

***The Committee says that the hybridization, or genetic upgrade of existing humanoids (presumably Homo Erectus, since Homo Habilis appears to have gone extinct over 1 million years ago)....***

**There were no humanoids on Earth before a thousand centuries ago. Only simians, and what are now called sasquatch, big foot or yeti are evolved from them.**

**....occurred about 100,000 years ago all over Africa. Just Africa?**

**Just Africa, initially.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

**The different species humans today wish to identify as separate and manifesting along different timelines and intervals of Earth history, are simply variations of the first humanoids created simultaneously.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

**It is not accurate to say Neanderthals went extinct; they did not reproduce with the same DNA. When the upgrade decisions to DNA were made and applied, this was done to the ovoid and spermatozoa, so that their offspring would be the upgraded version. When the previous humanoid with the now obsolete DNA died a natural death, so did their type.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

***How many times have extraterrestrial visitors intervened in our natural evolution?***

**Twice, in macro terms. The individual interventions have been in the many thousands, as part of each process. The initial creation was not an intervention; the natural evolution of all other existing species was left intact.**

Human Origin and Evolution More Readers Q & A– 2018 13 July

**Sasquatch or Yeti are a naturally evolved species on Earth but they do not travel through dimensions, more like between them.**

**Evolution IS intelligent design.**

**We're very different and have not (yet) evolved to the point to where sasquatch or yeti have gone.**

Human Origin and Evolution More Readers Q & A– 2018 13 July Comments Patrick

**The creation of humanoids was followed by a mining period of about three decades. At that point, the hybridization began, where DNA was upgraded or changed**

Human Origin and Evolution More Readers Q & A– 2018 13 July Comments Patrick

**Humanoids not simian, have been on Earth for about one thousand centuries. The assumptions humans have "evolved" are not correct.**

**Once DNA had been altered in fertile parents and their "new" offspring born, the previous DNA disappeared when those parents died a natural death.**

**The upgrades and development period lasted about three centuries, then humans were deemed sufficiently educated in the factors of their new environment and were left to develop on their - on our - own. A prime directive was put in place and we have been left to develop without direction, management or supervision.**

Human Origin and Evolution More Readers Q & A– 2018 13 July Comments Patrick

**We have demonstrated repeatedly that as a group, we will not handle well, across the board contact with visitors from outer space.**

**Because it will give us NO benefit to have a planet wide mass freak out, we who might want to see aliens ensure we will not.**

Human Origin and Evolution More Readers Q & A– 2018 13 July Comments Patrick

**We elect and re-elect leaders who keep the same pattern going, because they are focused on a lot more than alien ETs, a subject which will not secure more power, wealth and control for the leaders.**

Human Origin and Evolution More Readers Q & A– 2018 13 July Comments Patrick

**The pace and intensity of geophysical events will not be materially more acute, however there will be more shifts in human thinking, behavior and expression.**

The Shift Checkpoint– 2018 20 July

**Humans display still, what we have described several times before; a habit, often automatic and assumed without examination or introspection, that a reacting person bears nearly no responsibility for her or his reaction. S/he seeks to place this responsibility, the credit or the blame, upon the speaker by way of assumed popular attitudes. This is the default human perspective, and is incorrect. It is undergoing a shift, change and modification. You own your**

**reaction; you cannot buy, sell or exchange it or give ownership of it to the speaker and simultaneously maintain control of the dialogue. You can control your ideas, and you can express them. You likewise control your reactions.**

The Shift Checkpoint– 2018 20 July

**When humans begin to consistently enforce rules of behavior yet encourage free thought and expression, so will The Shift be complete. It is about this. This is the axis upon which events now turn, across the galaxy.**

The Shift Checkpoint– 2018 20 July

**You have incarnated on Earth to remember who you are. ....Your thoughts create your reality, as instantly as you wish it to be. Your thoughts likewise dissolve your reality, by your sole choice. You cannot conceal your thinking, as no other soul conceals thoughts from you.**

The Shift Checkpoint– 2018 20 July

*Why is the desire to control surroundings a challenge?*

**Because you can and have achieved limited physical success, however humans do not easily recognize or accept that often it cannot be done. This is the opportunity to examine reactions, not just to have them. Most humans express them only, and do not consider the reasons.**

The Shift Checkpoint– 2018 20 July

**Memories are clues towards learning examination of preferences before circumstances reveal them. Follow these clues.**

The Shift Checkpoint– 2018 20 July

*What Shift-related changes will humans experience as events continue to unfold?*

**Current distractions, so vigorously pursued by so many, will fade from interest in large ways..... We also say, the emphasis placed upon material possessions will fade, as concerns for image and reactions also drop far lower on the rungs of the human societal ladders they now dominate.**

The Shift Checkpoint– 2018 20 July

**Many humans have blocked their ascent to the top of the stairs with obstacles constructed of pride, self-esteem from possessions, anger, frustration and physical pain & pleasures.**

**There is nothing inherently wrong with possessions, or creating them. This exists all over the galaxy and always will.**

The Shift Checkpoint– 2018 20 July

**Limited resources to either purchase or make items will cause many to no longer be produced. Faced with these constraints, behaviors then thoughts will change.**

The Shift Checkpoint– 2018 20 July

*Do our alien ET visitor cousins have greater or lesser desire for material goods?*

**Far less. Function prevails over form or subjective preference, to a great, great extent. Wealth is having the mind become as sharp as possible.**

The Shift Checkpoint– 2018 20 July

**Alien ET cousins: There is no money or anonymous form of physical value exchange, what you call cash. There exist things you would consider to be similar to money as humans now employ,**

**however there is transparency for all who wish to see the amounts.**

The Shift Checkpoint– 2018 20 July

**In the lifetimes of the many of you reading these words, you will see these ideas take hold on Earth, at least the initial stages of the process.**

The Shift Checkpoint– 2018 20 July

**Phase II into III: Ash in the atmosphere from volcanic eruptions, will take effect on atmospheric temperatures and sunlight intensity.**

The Shift Checkpoint– 2018 20 July Comments Patrick/TC

**Believe what resonates. If you feel you are not sure, "...asking other sources will only add data and confusion. These may be valuable to you, satisfying the urge to calculate, measure and analyze however at what point do you establish belief?" replies The Committee.**

The Shift Checkpoint– 2018 20 July Comments Patrick/TC

**Schedule of upheavals**

**Phase 1 1990 - 2013 3 years of calm to 2016**

**Eartquakes, volcanos, twisters, floods, hurricanes**

**Phase 2 2016 - 2023 2 years of calm**

**Ash dust in upper atmosphere, less sun affecting synthesys crops, growth. 3 seasons of growing affected. West coast earthquakes heralds the start of chain reaction.**

**Phase 2 into 3.**

**TC: Ash in the atmosphere from volcanic eruptions, will take effect on atmospheric temperatures and sunlight intensity.**

**Phase 3 2025 -**

**2027-2032 Pole pre-cession, transport disturbance, international trade affected**

**2032-2047 Localization of commerce and trade, community reliance, state(prov.) and feds basically operating legal and judicial rule, 2<sup>nd</sup> dimension (fourth dimension) being made acceptable**

**End of upheavals;**

**TC: When humans begin to consistently enforce rules of behavior yet encourage free thought and expression, so will The Shift be complete.**

**Current distractions, so vigorously pursued by so many, will fade from interest in large ways. We refer to much of what is considered entertainment or a pastime. We also say, the emphasis placed upon material possessions will fade**

**Population reduction 3.5 billions over 40 to 50 years (2016-2066)**

The Shift Checkpoint– 2018 20 July Comments Denis

*Could it be [that] "answering" [is] just a matter of choosing to know the subject of the question "in my mind" and then know and transfer the relative answer?*

**Yes, because you open your mind and offer it.**

Time Questions and Answers– 2018 23 July

**You count them (days). This is time. Where there is no sunrise, no sunset, no compulsory phases of starlight and darkness, there is no pace or rhythm which requires numbering.**

**This does not mean there is no sequence, it only means there is no artificial number line humans have assigned. The occurrence of new things is expansion. Expansion occurs across the surface of your sphere, every increasing in size, always perfectly round and symmetric. Each new thing expands it, as if a newer layer were added.**

Time Questions and Answers– 2018 23 July

**Knowledge, activity and movement of your soul - your true existence - are best described as expansion. Sequences of events occur as part of a matrix cube, not a line.**

Time Questions and Answers– 2018 23 July

**You can go anywhere and as each point, turn, reversal, stop then start is made, the cube expands to the extent you move to a point not previously reached.**

**Lines can be imagined between each point, however the cube matrix is not stationary, where you move within it; you are in place and everything moves around you. This is how your extraterrestrial cousin visitors cross what are seen as massively long distances. They do not move across the distance, everything is moved relative to their position.**

Time Questions and Answers– 2018 23 July

**You can do this also.**

**You simply do not know it yet, and do not believe it.**

**We cannot know your position until you choose it. Your creation of a question is no different than moving from one physical place to another.**

Time Questions and Answers– 2018 23 July

**You are where you think yourself to be, on Earth as an incarnated human, and you enjoy the delay mechanism in the process.**

Time Questions and Answers– 2018 23 July

**It occurs to no soul that time exists, for a creation can be dissolved as quickly as it is made, or even faster.**

Time Questions and Answers– 2018 23 July

**All existence is permanent, in the memories of the souls who participate. Much as you can show a book to anyone who wishes to look and read, can participants in a creation display it to any soul who does not participate.**

Time Questions and Answers– 2018 23 July

**Deterioration of the physical record, on Earth with humans, erases the memories because the subsequent humans did not participate and have no reference.**

Time Questions and Answers– 2018 23 July

**The matrix is the real configuration of a soul's experience, expansion, existence and growth. It is shpere shaped and there are no lines with pre-agreed directions which have been artificially labeled.**

Time Questions and Answers– 2018 23 July Comments Patrick

**Your existence is not a course of study, with intermediate requirements or criteria, for advancement to subsequent levels.**

Time Questions and Answers– 2018 23 July Comments Patrick/TC

**Spacecraft: They are monobloc design and production. Consider a combination of what on Earth are called plating and powder coating. The vessel is created this way from metal alloys in both powder applied and plating processes, in layers.**

ET Spacecraft– 2018 26 July

**The hull shell structure requires approximately one thousand layers and is approximately 2 centimeters thick. Yes this means one layer of powder metal and plating are approximately 0.002 cm thick.**

ET Spacecraft– 2018 26 July

**Titanium, magnesium and aluminum are parts of the process but there are other materials and metals unknown on Earth.**

**Doors and hatches are made of identical materials in the same process, held in place by internal artificial atmospheric pressure pressing outward.**

ET Spacecraft– 2018 26 July

**Understand and accept that magnetism and gravity are the same force.**

ET Spacecraft– 2018 26 July

**Magnetism is electricity without wires (versus electricity, which is magnetism with wires) and manifests more easily in certain materials which conduct electricity.**

ET Spacecraft– 2018 26 July Comments Patrick

**Is there a way to generate enough physical force without a mechanical device or bodily movement? Yes, although not common. This ability works far more effectively from the fifth into the fourth and third dimensions.**

ET Spacecraft– 2018 26 July Comments Patrick/TC

*Moving or controlling physical object with mind*

**The youngster has no belief barriers to overcome however also does not have the capacity to understand the need and purpose of employing this ability. Much as youngsters readily accept the presence of non-physical beings where this same precise ability & behavior in adults is deemed a symptom of mental disorder.**

ET Spacecraft– 2018 26 July Comments Patrick/TC

**Humans have incarnated to be humans, not set aside the conditions, constraints and parameters of human life. The mind movement ability was already available prior to incarnation and will become a normal ability again**

ET Spacecraft– 2018 26 July Comments Patrick/TC

**Practice free speech, which few among you do. Free speech is the unpopular idea, the issuance of which is staunchly defended by those who disagree strongly.....Free speech still means for many humans, my idea which I consider newer, should be adopted by you, and it should replace your idea which I deem older and not as good. Discard your idea and replace with my newer one.**

ET Spacecraft– 2018 26 July Comments Patrick/TC

**Your level and the dimensions within - length, depth and height - have these physical parameters, and they also exist but differently in the next higher or fourth range of dimensions, which also have the length, depth and width components humans perceive, but above this, at your soul level, there is no distance. Only location.**

Alien ET Written Communication– 2018 02 August

*How far is required for the alien ET "signal (telepathic)" to be lost?*

**It varies among civilizations, generally several to dozens of light years. The loss of signal receptivity, when humans are concerned, is limited by humans' vibration level, not the alien ET.**

Alien ET Written Communication– 2018 02 August

**With the technology to travel between stars and galaxies, come spiritual understanding and advanced communication of the telepathic type. These components are never separated, and are**

**the reason we say so often, there are no malevolent ETs near Earth. It is not possible to hold nefarious intent yet travel to other stars**

Alien ET Written Communication– 2018 02 August

**(ETs) written code is structured much as humans do it, but with numbers. Humans use symbols in place of them, calling them letters.....Alien extraterrestrial civilizations do the same however the symbol represents a number. Between civilizations, the numbers have been agreed, so symbols can be translated by replacement, instantly.**

**How many symbols?**

**Typically one hundred are recognized on an interstellar level.**

Alien ET Written Communication– 2018 02 August

**Why one hundred?**

**It is a good easy number, as you discovered with the adoption of the decimal system. Each learner focuses on the ten principal symbols of each group, and eventually learns all one hundred.**

**.....this is like numerology.**

**Which shows that letters are replacement symbols for numerical values. This is why numerological analysis of language lines up, for any Earth tongue.**

Alien ET Written Communication– 2018 02 August

**The numeric values behind the symbols are encoded, read and used to determine the equivalent symbol. Humans do not yet recognize or acknowledge the numeric value, but through what is deemed intuition. The numeric value is what achieves congruence or dissonance, what makes you instantly like or dislike something. No analysis is conducted by humans; the users of such written codes learn the numbers, memorize their own symbols and learn to use electronic translators for written information produced by another civilization. Humans call this feeling but its basis is numeric.**

Alien ET Written Communication– 2018 02 August

***Have human books been translated and read by alien ET civilizations?***

**All of them. Yours has become very popular.**

Alien ET Written Communication– 2018 02 August

**The reactions of humans in general to news of aliens is also widely distributed. As we have told you, in the minds of many a human, alien extraterrestrials are a topic of similar seriousness to that of zombies. This view is cause for great laughter and comedy in many an alien civilization. A popular joke is the equivalent of this: what is the difference between a human and a zombie? Nothing.**

Alien ET Written Communication– 2018 02 August

**Absent paper. Humans migrate to this process now, with display screens and portable ones. Principally pop-up holograms are used. To read a book, as you would say, involves this. A hologram displays the "words" the symbols which hover before the reader.**

**How does writing get done?**

**Much as humans have developed dictation software, however no sounds are received, or converted to electromagnetic energy. The electromagnetic energy is already in existence with the thought, so the writing machine is turned on and tuned to the user.**

Alien ET Written Communication– 2018 02 August

**Hologram pop-up e-books.....it projects a three dimensional, moving hologram video of the princess sending a message to Obe Wan Kenobe? Books are presented and read just like that.**  
Alien ET Written Communication– 2018 02 August

**Star and solar systems are but larger versions of atoms. The atom itself is the great divide between rotation of triangles to produce its form and shape, and larger components which are not the effect of rotation.**

4 X 3 Quantum Theory– 2018 04 August

**It is easy to believe the proton and neutron inside an atom are solid, and they are spherical to be certain, however they are the appearance of the movement of the triangle which rotates through four equidistant stop or turning points.**

**Slowing the triangle to a stop, or increasing one's vibrational speed to the same pace as the triangle follows, either will allow it to appear stationary. In this way it will be noted the three points or corners of the triangle are also made up of what appears to be a smaller sphere, itself formed by the rotation of a smaller triangle within, across four stop or turn points.**

**This means each point of the triangle takes its turn moving to the next corner. Corner 1 moves to stop point 2, corner 2 moves to stop point 3, corner 3 moves to stop point 4, then corner 1 moves to stop point 1 and the cycle repeats continuously. Doing so in the opposite order or direction reverses polarity.**

**Heat is generated by agitating atoms, and touching some to others causes the faster ones to increase speed of the slower ones. Electricity is the effect of the force which drives the rotating triangle sphere (RTS) to move its corner from stop point to stop point.**

**The force increase will cause an electron in orbit to jump to the next atom and in turn, bump an electron already there to the next atom beyond, and so forth. This is electricity.**

**Magnetism is the jump of electrons without physical conductors to follow.**

**Gravity is the attraction of two objects. Jumping off any higher surface to a lower one demonstrates this, and magnetism is simply the effect of transmitting electrons after the force between the atoms exceeds the force inside which binds the electron in orbit.**

**Below this threshold, the effect is known as gravity, above the level of force necessary for electron bumping, electricity or magnetism result, depending upon the conductivity of the material.**

**Because gravity is a function of mass not conductivity, size is the apparent determinant of gravitational pull. All solid objects are held together by this subatomic energy, and the crystalline structure of the object, determined by the configuration, is what holds together the many atoms and molecules which form the object. The object in turn exerts force as one, as long as its atoms & molecules remain bound together, in physical connectedness.**

**Rupturing an atom releases energies which otherwise exert a mild effect when connected in stability. The effects are atomic breakage you have learned well on Earth, at the macro level. This is a powerful force; the effects of gravity, electricity and magnetism are very mild, even at their most powerful level and do not compare to atomic rupturing.**

**Your minds operate with this same energy, and thoughts are the cause and effects. This is why minds can shape physical objects and even all reality, and do. Observe your current surroundings; they exist by human mental agreements and presence, because the same energy which comprises and forms human thought, is the energy of the sub-, sub- and subatomic**

**components of atoms.**

4 X 3 Quantum Theory– 2018 04 August

**It is your human choice to join ideas, or impose a common set of beliefs everyone should follow. This last part is the greatest challenge faced by all participants; to what extent should rules and sanctions be maintained, reduced or increased? Should free will not also include the ability to ignore the rules?**

Cooper Q and A– 2018 08 August

**Free will does encounter collective restraints and rejection, depending on the issue.**

Cooper Q and A– 2018 08 August

**Abortions on Earth now, are currently approximately half agreed by the incoming soul, half against that soul's preference.....The free will of the expecting mother to terminate the process is met with deep disappointment as much as acceptance. It is accepted however, as the mother's free will reigns supreme.**

Cooper Q and A– 2018 08 August

**Over the longer term, fertility will decline among all humans although it will not be noted until after the process has been underway for some time.**

Cooper Q and A– 2018 08 August

**The more aggressive the actor, the less likely s/he wishes to become a victim of it.**

Human Peace and Agression– 2018 09 August

**The majority of humans do not truly believe they are capable of halting the violence, yet they are members of the same groups which teach and perpetuate the violence.**

**Violence which erupts among and between humans based on emotions, is taught and learned.**

Human Peace and Agression– 2018 09 August

**Humans become more peaceful by teaching it (being more loving and kind), both through example and actively, just as violence is taught by example and also actively, affirmatively.**

Human Peace and Agression– 2018 09 August

**Interstellar travel capability does not develop in a civilization which has not reached a level of spiritual understanding.....They (a traveling civilization) will not come away from the contact with a technologically less developed society of beings, without energetic effects upon themselves.**

Human Peace and Agression– 2018 09 August

**If you disturb another person's home, life or well being does this have any possibility to trigger remorse or regret? There are the socio- or psychopathic members of mankind who can do this without concern or worry of what they do. This is a life plan contract for them. The majority of humans cannot cause such strife or harm in the life of another and simply shut off concern.**

Human Peace and Agression– 2018 09 August

**No two humans conceive a set of cells which shall develop to the stages of fetus and beyond without a soul already having agreed to this with both parents-to-be.**

**There is no human alive without a soul, and we offer our regrets to fans of zombies everywhere.**

Babies in the Womb– 2018 11 August

**Typically the soul takes up residence when the baby has grown to the point of limb movement and change of physical position, but this is the typical, not absolute decision.....Baby movement during a pregnancy is the incoming soul trying out the machinery.....because a pregnancy is terminated, the entering soul's expectation is also terminated.**

Babies in the Womb– 2018 11 August

**As she sleeps each night, her guides, the incoming soul's guides-to-be, who are already chosen before the incoming soul has even agreed a life plan and place among humanity, the soul itself and the father all confer. Often, other incarnated souls and their guides also join the meeting. If the decision to end the pregnancy is made, the disappointed soul understands however as often as this happens, the disappointed soul does not agree.**

Babies in the Womb– 2018 11 August

**The decisions about who - which soul - will incarnate are made by the souls of the already incarnated on Earth, all the Guardian Angel Guides, both potential on those deployed and already on-duty.**

Babies in the Womb– 2018 11 August Comments Patrick/TC

**There is no such thing as an evolved or not evolved soul. The proper description in human English is experienced with incarnation....**

**There is no waiting or time, all incarnations occur simultaneously. The human Earth time illusion and distortion of true existence make lives seem sequential**

Babies in the Womb– 2018 11 August Comments Patrick/TC

**The proclivity, tendency, likelihood or probability of an addictive personality is however, a most definite & certain choice. This trait is never haphazard or accidental.**

Addiction– 2018 12 August

**The lessons are generally threefold, to face the challenge of saying yes or no to the initial opportunities before addiction can set in, to make the effort to manage other aspects of life during the addiction phase while the desire to abandon addiction has not yet occurred and thirdly, the decision to reduce and stop the use.**

Addiction– 2018 12 August

**Guardian Angel Guides may help to the extent a soul acknowledges three things: the existence of guardian angels, a belief help is possible from them and lastly and most importantly, the human soul wants the help.**

Addiction– 2018 12 August

**The human habits, the mental anticipation and after effects, such as mood, ideas, regrets, satisfaction, fear, lust, anger, rage, submission, resignation, concern and many others which accompany the use of drugs, do not always fade quickly. These can linger for a certain phase of a soul's return to Heaven, despite the utter absence of physical need or effects.**

Addiction– 2018 12 August

***Do addictions cross over bleed through to other lives?***

**No, never. If this condition exists in one incarnation or another, this happens because the soul intentionally brings it into both.**

Addiction– 2018 12 August Comments Kim/Patrick

***If a longtime addiction is overcome in one life would that experience / lesson be considered finished forever?***

**This depends on the soul, from the perspective of that soul at home in Heaven. What is completed in any single lifetime or incarnation can be set aside permanently as a well ticked box, or can be pursued for the experience inside new circumstances**

Addiction– 2018 12 August Comments Kim/Patrick

***How deeply destructive does an addiction retard or block spiritual growth?***

**The question assumes addiction achieves this; there is the possibility the addiction IS a desired spiritual growth experience. Mass murder, rape, embezzlement and many acts considered criminal can also have this aspect**

Addiction– 2018 12 August Comments Kim/Patrick

***If there were no slit in the shield, what would appear on the photographic film?***

**Nothing. The shield will block the light. The observer's energy affects the light direction and velocity, not the film or shield.**

Double Slit Experiment– 2018 13 August

**That you the human observer can see the light or the effect of the light reaching the surface beyond the slits means the light reaches you.....**

**If you are aware the light exists, you have an effect upon it.**

Double Slit Experiment– 2018 13 August Comments Patrick/TC

**Your mental energy, which is your soul and your mind - not your brain - radiate, as do all living things, all souls and all existence. There is interaction and effect.....**

**The confusion has been, is the light behaving like wave or a particle? Wave energy passes through a substance, most obviously in water.**

Double Slit Experiment– 2018 13 August Comments Patrick/TC

**Because the energy of your mind acts upon one and many things, just as does the energy from a stone dropped into water, does not mean they are inherently different. They simply seem different, because humans cannot easily see separate quantum particles**

Double Slit Experiment– 2018 13 August Comments Patrick/TC

**As we view and hear the news or regard one another, how we regard it/them, matters. We influence everything. Knowing we are energized beings how we regard, or how we perceive all has consequences/influences.**

Double Slit Experiment– 2018 13 August Comments Linda

**When your Guides are following your instructions, nudging you towards acting according to the plan YOU created, approved and chose to put into motion, you will feel urges, attractions, feelings of desire to act that often seem to come from no source, no place and no origin. You can feel at a loss to explain why you feel almost compelled.**

**Another way this happens is you feel completely natural in pursuing it, so it seems as normal and natural as breathing.**

Quick Reader Question – 2018 18 August

**The decision to contract a disease which can be either fatal or restrictive, is made with intent to pass through the experience under the illusion the condition was arbitrary or contracted through negligence or ignorance.**

Disease, Cure, Life Plans and Free Will – 2018 19 August Comments Tim

**It's OK to put oneself before "others" where that means pursuit of one's interests not harmful or deceptive. Dislikes or feelings of being offended are neither harm nor deception committed by someone else, but rather reactions chosen & owned by the people feeling them. Pursuit of our interests is what makes the world go 'round.**

Disease, Cure, Life Plans and Free Will – 2018 19 August Comments Patrick

**The pyramids were built by extraterrestrial visitors entirely, using anti-gravity or gravity neutralization devices. As we have explained before, magnetism and gravity are essentially the same force, gravity the effect from what occurs inside an atom, magnetism the effect outside the atom, in certain materials which are conductive and have other atomic structural properties.**

Egyptian Pyramids – 2018 19 August

**Extraterrestrials have never withdrawn from Earth, humans have chosen to receive and initiate less and less contact. Visitors to your planet Earth who come from other planets and sometimes galaxies, have cloaked, covered and concealed their presence in precise proportion and coordination with the fade in human interest.**

Egyptian Pyramids – 2018 19 August

Egyptian Pyramids – 2018 19 August Comments Patrick

***How detailed is soul planning?***

**It is as detailed as the soul prefers, and this level of detail is often determined by the other souls the life contract involves.**

**The role of Guardian Angels & Guides ensures these experiences and encounters are met as closely as designed, and that other experiences and encounters do not interfere, prevent, improperly expand or**

otherwise materially distort the key life experiences.

Free will trumps all plans, and each soul confers with her & his guides as often as required to review the planned route and progress, to tick the boxes and examine development, choosing continuance, deviations, short term change, adjustments, removals or additions. Nothing is fixed unless it is chosen to be fixed.

Life Plans and Events Reader Questions – 2018 19 August

*How important is the selection of body and the body's appearance when incarnating?*

It is part of the planning process, as each soul expects this to be significant or necessary to her or his life.....thus planning to give relatively significant importance to the reactions of others to his or her appearance, this is part of the attraction of physical incarnation.

Your existence as an energetic soul cannot provide this experience; you can make your appearance be anything you prefer or you may, as often as not, remain as a point of light.

Life Plans and Events Reader Questions – 2018 19 August

*Do some souls come in to have a particular appearance or body?*

Yes. To feel rejection is more valuable than acceptance, and to have one then the other, can show how rejection of appearance is always self-rejection first, which is then learned by the rejectee to be a statement other humans make about themselves,

Life Plans and Events Reader Questions – 2018 19 August

Marriage is a human institution, a human created social convention. The decision to become a mother without a mate is chosen to deliver insight and experience into the human behaviors which humans sought to manage through creation and adoption of the marriage institution.

Life Plans and Events Reader Questions – 2018 19 August

*How do you know you are at a pre-planned marker in the earth realm? What are the signs?*

The signs are a sensation of familiarity, often strong, that the person, the several people, the place or experience is or are natural, already known or automatically understood, even as conscious memory is unmistakable; you know when experiencing these sensations you have absolutely never been in this spot or situation previously, yet you feel as if you know it as you do any place you're certain you have been many times.

You have been to this place, in your planning and your dreams.

Life Plans and Events Reader Questions – 2018 19 August

Human life teaches pursuit of positive, avoidance of negative. Little is learned with this approach,

Life Plans and Events Reader Questions – 2018 19 August Comments Patrick

Your co-workers are the ones inside their little world, and because they do not see what you do, they describe your broad, galaxial and other-worldly perspective as a "little world", because they do not see it; they are transposing the limitations they have erected around themselves, onto you.

Life Plans and Events Reader Questions – 2018 19 August Comments Patrick

Russia is not a danger or threat to the USA; Russia pursues its interests and opportunities without regard for USA approval or concern for conflicts. It does not aim for USA conflict but is also not concerned with the USA's reaction.

Life Plans and Events Reader Questions – 2018 19 August Comments Patrick

The group humans have named the Illuminati are not a criminal organization, committing acts against humanity, as you ask, or against individuals as that would serve Illuminati interests.

**They have done ethically questionable things, from the point-of-view of a purist, but not to be criminal as an objective or goal.**

Trump, Illuminati and Putin – 2018 20 August

*If we are just IUCs(Individual units of consciousness) and this is a virtual reality, then we could be part of an experiment to see how far artificial intelligent can go in believing it's alive.*

**Yes, yes and yes. Reality is not physical, and is not defined by physical perception. Humans exist inside physical constraints, and thus use a definition also from inside these limits.**

Reader QandA – 2018 21 August

*What is consciousness anyway? How can you define it?*

**Consciousness is existence, including non-physical. Ideas and thoughts exist; they're not physical.**

Reader QandA – 2018 21 August

*What does "alive" mean outside of this paradigm?*

**It's not a paradigm. Alive means biologically functioning, to humans. Alive really means nothing, because everything is.**

Reader QandA – 2018 21 August

**You are your source. Yes. Your mind is with you, and you are not yourself without it. Your reality can change as much, little or often as you wish. What changes as you grow is the knowledge this is possible.**

Reader QandA – 2018 21 August

Reader QandA – 2018 21 August

*I have shared knowledge to others and get blank stares from them. They are not ready to receive I believe!*

**They are open and have chosen you to be the catalyst, to be the one who walks into the open door. The blank stares are their choice, responsibility and benefit. They have chosen first exposure by crossing your path**

Reader QandA – 2018 21 August

*Are we part of an ancient type of computing system?*

**Yes however it is not ancient. There is no age where there is no time.**

Reader QandA – 2018 21 August

*Is it true there are no accidents just experiences?*

**Yes, however there ARE accidents inside certain virtual realities you create both individually and collectively. The occurrences are very much seen as accidents, because that is the plan, intent and reason.**

Reader QandA – 2018 21 August

*Is life just a vacation from eternity as a soul?*

**Yes and no; not a vacation as humans understand this. Human life is a floor of the structure, a brick in the wall and a drop in the lake of existence.**

*It is impossible to understand in this state I'm sure!*

My Uncle Died – 2018 23 August

*How come the Dogon people (a tribe that lives in Mali) knew of the Sirius A and B (and it seems also C) ?*

**The Sirians have shown them. The Mali group of people, what you call Dogon, did not have a central authority many of you reading this have formed yourselves and named government, to whom they would reflexively turn and require explanations, investigations and answers. They had also not learned to distrust the unfamiliar and had not taught one another to fear it.**

**Oppressors like to Oppress, To Press. To engage Pressure Points, to make their point.**

**Oppressors hate the abilities of others to Press (their point).**

**Deeply dislike for others to have the confidence (& or ability) to point out a different "point of view" of their own.**

**The Press isn't just called the Press because of the invention of the "Printing Press", it's because the design was (& still is) to "Press" certain issues into public view and to "check" a runaway offense of an "offensive oppressor" (think full court press in basketball).**

**Oppressors, aggressors, transgressors FEAR reverse pressure.**

**They fear it so much, that sometimes they "blow a gasket" trying to suppress (or contain) the pressure.**

**That's when shit hit's the fan.**

As The World Turns – 2018 24 September Comments Tim

**The shroud of Turin**

**The Committee says, human science does not yet recognize this effect, as the human soul and the energy involved are not yet recognized or acknowledged in a scientifically accepted way.**

**It is a similar effect they say, to where we can see what is called a ghost in a photograph, but not with the human eye which observed the simultaneous scene when the photo was taken. Light photons stimulate a chemical reaction, and this was conceptually similar to what happened to the cloth as Christ's soul switched to & from his comatose body.**

As The World Turns – 2018 24 September Comments Patrick/TC

**We are all natural channelers and telepathic communicators. Our GAGs will take us towards anything we choose to see; interest is the only ingredient we need supply; awareness will follow and our GAGs will make certain of this. Imagine an existence where everything is available to you, the only requirement being awareness of it. The universe and our energetic souls have potential access to so many things, it is correct to say it is endlessly varied. The only requirement we need supply to the process as souls, is our interest and desire for awareness. Once given, it is received.**

The Deep State – 2018 02 October

The Deep State – 2018 02 October

*Do our alien extraterrestrial cousins have public policy discussions, i.e "politics"?*

**Of course, this is a necessary condition of any sovereign society.**

*How about you angels, souls and energy beings?*

**Even more than physical beings of the 3rd and 4th dimensions.**

Alien Politics – 2018 24 October

*If there were no money, there would be so much less to justify human activity.*

**To the contrary, we can say with certainty, other and more rewarding, more fulfilling activity and interactions would come to replace what occurs now with, for and in pursuit of money.**

Alien Politics – 2018 24 October

*That's like saying there's no God in Heaven.*

**That is right, there is no God in heaven, God is all of you and by this fact, part of and among all of you. Sit vis vobiscum, sit vis nobiscum.**

Alien Politics – 2018 24 October

**The public press is quite different among telepathic beings; to restrict knowledge of another's thoughts requires two elements, and we refer to physical beings with telepathic communication as their principal personal method; physical separation and also agreement of both sides, the sender and the receiver.....**

**Physical barriers which create electromagnetic fields can be used, effectively blocking the transmission.....**

**It is also quite possible to shut down one's thinking by replacement thoughts**

Alien Politics – 2018 24 October

*Can their thoughts be blocked to you, an energetic being?*

**No, however their GAGs will ask us, if the GAGs believe this beneficial.....**

*Can a pundit lie as sometimes happens among humans?*

**Yes, however not successfully.**

*Why?*

**The deceit is carried along with the thoughts; like food in a wrapper. These cannot be separated.**

Alien Politics – 2018 24 October

***Is public disobedience of rules common?***

**No but yes; we say yes because the telepathic nature of communications means disobedience becomes majority dissent very quickly, thus a new election is held and the rules modified or discarded.**

Alien Politics – 2018 24 October

**Leadership very much wants to suppress effective means of self defense while maintaining it for themselves. This allows lesser dissent, less popular or general referenda and more legislative power in the hands of the leaders. In the many places where such leadership remains self appointed, which we mean to say power is simply seized by force and maintained by threat, this operates plainly. We suggest Russia and China as examples.**

Alien Politics – 2018 24 October

**The struggles, arguments and discrepancies surrounding violence, harm to others and implements to carry out the acts, are the early stage of eventual realization that your minds are the weapons.**

Alien Politics – 2018 24 October

Zeta Reticuli Interaction – 2018 07 November

***Do we have souls from [that] planet incarnated on earth at this time?***

**Yes, of course but previous incarnations are largely blocked from current memory access, by each of you by your own decision.**

Zeta Reticuli Interaction – 2018 07 November

**You can't go there as a human so you cannot notice any difference which could be translated into human terms. Death goes to the 5th dimension directly.**

**From the 4th looking back at the third we seem slower, less solid and generally unaware of existence of anything beyond ourselves.**

Zeta Reticuli Interaction – 2018 07 November Comments Patrick

**November, the eleventh month, the eleventh day, is  $2 + 0 + 1 + 8 = 11$**

**11 / 11 / 11**

**It will be a big day, especially because  $11 + 11 + 11 = 33$ , a REALLY important master number. Expect big things to begin, to reach their apex, peak or summit or to be revealed and/or seen in very different, unique and NEW ways.**

Brain Surgery – 2018 09 November

**Your brain is no more your personality, knowledge and essence of your soul than the engine, wheels and transmission of an automobile are its operator.**

Brain Surgery – 2018 09 November

***Is there a way to actively train this part of the brain to become even more receptive?***

**No, reception is never a challenge however recognition and acknowledgement this occurs, often are. Humans doubt channeling, and are generally skeptical of thought energy transmission.**

Brain Surgery – 2018 09 November

**Energies don't attach, other souls and even spirits come visit. Yes, souls with dementia often "take breaks" and depart the body, just as is done during a coma or deep sleep. Why is it freaky to have a soul look back? This is done as often as humans look at each other; you're being observed all the time, 24/7.**

Brain Surgery – 2018 09 November Comments Patrick/TC

**Learning to channel is learning to separate ego and personal preference, which is not difficult to achieve.**

**Acknowledge ego and opinions, with consideration given to the possibility OTHER thoughts will also arise which do not match up or align with personal preferences and proclivities. A little time and practice make the differences stand out very obviously.**

Brain Surgery – 2018 09 November Comments Patrick

**There are no past or future lives until the human timeline is imposed; only alternate routes truly exist. Thus bleed through is common; there is no requirement to draw from the past, because what the human calendar says should be in the past or future is available now.**

**The apparent schizophrenic person who speaks to, sees or hears people and things others cannot perceive, is tuning into a range of vibration all of you humans may access, but choose not, for the majority or totality of your lives.....In the cases of many schizophrenic people who end their lives intentionally, it is a planned event.**

Brain Surgery – 2018 09 November Comments Patrick/TC

**In many cases, the long need for sleep originates not in the body but in the soul, and in these cases, human mind prefers shorter visits with and using the incarnated body.**

Brain Surgery – 2018 09 November Comments Patrick/TC

**Why a soul would remain resistant to Heaven, even though a body has died; the simple answer is a successful incarnation. The soul so well embraced the physical limitations of that life path journey, s/he finds loss in the departure of these sensations and experiences, and remains among the familiar.**

**This is normal and expected, nearly all humans and animals do this; it is a condition and requirement of plant life.**

Crossing Over – 2018 10 November

**There are no fractured aspects of a soul; this does not exist. Fractured behaviors of humans when seen against the preferences of the majority of humans, yes indeed there are, but never is a soul fractured in this or any other way.**

Crossing Over – 2018 10 November

**The reason such soul is encouraged to depart the Earth environment is opportunity cost; so many other great things are happening in its other simultaneously occurring incarnations, not to mention at home, that costs of remaining are far too high, in what these costs incur against the enjoyment of universal existence.**

Crossing Over – 2018 10 November

**The human idea that stages and phases are required, are necessary and ideal does not translate to the dimensions from which your soul comes to journey across Earth.**

Crossing Over – 2018 10 November

**Such spirit formerly involved, can seem to human ideas as a victim negatively and badly affected by the event. This is generally the opposite from the human ideas, as negative as the event really was in human terms. The subject of a beheading by guillotine, or a shooting or an avalanche, might wish to remain aboard Earth where most humans would believe this crazy**

Crossing Over – 2018 10 November

**Grounding: place your bare feet upon the soil or sand and think of energy entering your body from Earth and also being sent from you through your body into the Earth.**

Grounding – 2018 15 November

**Telepathic communication between physical beings essentially ensures free speech. Humans have recognized the vast and permanent benefit of its use, however because speech - interbeing communication - still requires a physical component, be them hands, eyes, ears or vocal chords, the ability to interrupt the physical aspect remains possible among you.**

Alien Conflicts – 2018 27 November

**Allow free speech; upon hearing what you find distasteful, ungrateful, wrong or nasty, be appreciative of the ability to say such things, or ignore such things or respond if you believe it helps the listener of your different point-of-view.**

Alien Conflicts – 2018 27 November

**Telepathic abilities**

**No, abuse will not be a problem, you all have Guardian Angel Guides who will prevent this from happening. They and we will not interfere with the target of the selfish abuse, but will curtail a communicator with ill will UNTIL their target learns to simultaneously detect bad intent. ### **Sleep paralysis**

**In some people at some moments, the return to the body of the soul, which is the re-engagement and re-connection of the mind to the brain, occurs faster than wiring connections can be re-established. We refer to the human body nerve network. The plug cannot be inserted into the outlet as quickly as the human would like.....There is nothing wrong, bad or negative about this effect. To the contrary, you who might experience such brief, temporary phenomenon to start your day, are a somewhat special and unique soul.**

Sleep Crystal Paralysis – 2018 28 November

**Crystals amplify your energy and add their own, to create a harmonic blend. If you believe it will help, it will. The degree to which help will be felt, turns precisely and proportionally on need and misalignment. If you feel little to no improvement from a crystal, its good effect was not as necessary as you suspected.**

Annual Potpourri – 2018 04 December

***Does the same God create and dominate all different universes?***

**TC: You are God, each of you individually, thus collectively. All souls in all 9 universes are connected in this way.**

Annual Potpourri – 2018 04 December

**One thing I've learned through years of reading The Amendment is that thinking and knowing are two distinctly different things!**

Winding Down – 2018 05 December Comments Renie

**Since you're shelling out BIG BUCKS to your own(Guardian Angel and Guides), you can ask them to get to work for you and believe me, they will do it happily.**

Winding Down – 2018 05 December Comments Patrick

**You are God now. The connections, matrix and web of links among & between all souls - incarnated or not - are God. There is no patriarchal figure with control, handing out favors and/or punishments for disobedience or following "his" words & command. That's the human view of say, a benevolent dictator or king, transposed (imposed?) to suit human points-of-view and/or experience.**

### **Incarnation**

**First of all, nobody ever does it because of need or urge. It's done as a happy adventure; the suggestion of "need" never enters the equation.**

One Last Reader Q & A Before Sleeping In The Cave – 2018 30 December

**Our souls NEVER see incarnation as a task, duty, obligation or chore that "needs" to be done. Either one chooses not to do it, ever (and there are souls in Heaven unaware of incarnation) or s/he and we jump in with all three feet.**

**When our bodies die, we re-discover what we always are, seeing once again how the solid and permanent connections we all have to one another, are what simultaneously create independence and autonomy.**

**There is no ability to hold authority over anyone, because they hold the same connection to you. What might be imposed over and upon you against your will, encounters your same ability to impose upon others, if you so choose. Why? Because connections are permanent; there is no such thing as escape. You can't get away and neither can the would-be tyrant. thus, there are no tyrants, impositions, fear of flight or pursuits.**

**Incarnating on Earth however, provides a chance to play king & overlord or subject & victim. We are not re-absorbed back into anything. There is no Borg Collective. Our individuality is enhanced, not reduced, when our bodies die.**
