

# Corona Virus Mid May 2020 Update

16 May 2020

The event of the year drags on like a dredge ship. Where are we? The Committee has our coordinates.

*Q: Esteemed Committee, the news is lately peppered with bits & bytes about the virus' origin, now suggesting samples were destroyed in the name of safety. Can you update what you told us previously in relation with and speak to, the veracity of this recent "news"? Is this true and is safety the true reason?*

C: The corona virus now spreading but diminishing through mankind, it was intentionally created in the laboratory in Wuhan China just as has been reported. This virus occurs naturally but the release was of a mutated version, intentionally developed. The overall purpose of the laboratory was similar to others in many other nations. This virus was known to be under development, however as we explained previously, opposition interests sought to accelerate development of mutations, to discover a faster spreading mutation.

The Chinese government does not want this revealed for obvious reasons.

*Q: The virus was negligently released, yes? Is China attempting to cover up anything and why?*

C: Yes, the rogue and now impossible to locate scientists and also efforts to locate them, including examination and interrogation of anyone else employed or associated with the laboratory. To determine the extent of the opposition corruption or influence.

*Q: Is this Covid-19 version similar to the influenza virus in contagiousness?*

C: Very similar.

*Q: How many deaths and serious cases will it cause compared to pandemics of the Hong Kong flu, bird flu, swine flu, Spanish flu and chimney flue of the past century? How about the regular flu?*

C: This covid-19 virus is less fatal, but air travel volume, until recently higher than ever, caused its spread across a wider area of the globe more quickly than ever before, the spread within an area or region would otherwise have been less than the other viruses mentioned, including the regular flu, meaning the most known disease of this list, known well and experienced already, each year.

*Q: Does outdoor exposure really limit its transmission?*

C: And prevents it, when the virus is exposed to ultraviolet light.

*Q: Do face masks help at all?*

C: They lessen transmission of the virus given off by an already infected person however do little to protect against becoming infected; the eyes must be covered also to achieve this.

*Q: How about the physical distances of say 3m/6ft? Does that help?*

C: Yes, more than masks, much more.

*Q: As more statistics come in, fatalities seem to be concentrated even more in the elderly, and already sick with something else. Most people have no symptoms or reaction. Why?*

C: This effect is like what is already known with many viruses, research will not uncover anything unusual for the Covid-19 virus.

*Q: My largest personal concern is economic damage. Why are people in positions of authority, at least from what I can see in the USA, approaching things this way?*

C: Power.

*Q: Don't they care about the damage being done?*

C: They do, however the priority is political gain. The power held is taken for granted. This is the same effect seen with behind-the-scenes global elite, nicknamed Illuminati, New World Order, Bilderbergs and other such nicknames. The group has no name it chooses for itself.

Overall, what occurs is the extension of money and diminishing marginal returns. As an example, your hunger and love of bananas will ensure enjoyment of the first one eaten but the tenth, if you ever get that far, will likely not be enjoyable at all to eat, but rather unpleasant.

If your supply of bananas becomes vast and perceptibly unlimited, you will quickly seek to trade bananas for other things, money the medium of exchange.

Because only so many houses, changes of clothes, meals, cars and trips can be occupied, worn, eaten, driven and taken, then soon the money represents much more than these physical things, they become taken for granted. Power and influence become both attraction and addiction.

The tighter the clamps are felt, the more chained up are the leader(s) who seek to impose ongoing restrictions, to their power exercise addiction.

*Q: Is this the real spiritual reason behind the presence of the covid-19 virus at this step in human history?*

C: Yes. As we have said, at least in the human English language, phrases which mean prisons, labs and psychological conditions are being used so commonly now, that the great majority have not noticed and easily accept the altered meaning.

*Q: Lockdown, quarantine and social distancing?*

C: Yes.

*Q: Are world economies going to recover?*

C: Overall yes, however not to resemble precisely what was seen before January of this year twenty twenty. Before bigger changes come.

*Q: Advice for the readers here?*

C: Humans are not telling each other the entire story, and when it is eventually offered, little interest will develop. Your leaders currently see themselves principally and in some cases, as your masters, and you are to be obedient, for your own good.
