

Message To Mankind

16 December 2023

Previous messages for mankind from *The Committee* were popular, and –if the several recent requests I’ve gotten are a good indication– remain so. I recall they were numbered, now just identified by date. Oh, and line numbered, also. ☺

=====

1 “Greetings Earth travelers, a pleasure to make your presence, a thing which operates on Earth
2 as it does in Heaven. Wait....Earth is Heaven, haven’t we just explained this? So might see you all
3 the similarities, commonality and overlaps, but simultaneously also do you not.
4
5 Life as a human aboard Earth is a visit to the movie house, theater, opera, rock concert, recital,
6 graduation and inauguration ceremony all lumped together, surrounded by elaborate stage
7 decorations where events take place, but your back is turned to most of them, most of the time.
8
9 What show, scene or episode now plays on Earth?
10
11 Around yourselves you may and should look, for much news of what transpires any and
12 everywhere can flood your mind, as would a broken dam and burst reservoir inundate the land,
13 with equal or even greater quantities of mud mixed in.
14
15 Our message this visit, is human mud.
16
17 Denouncing Israelis is easy, accurate justification can be cherry picked with ease from the
18 Middle East mess.
19
20 Denouncing Arab Palestinians is easy, accurate justification can be cherry picked from the
21 Middle East mess.
22
23 Is it right to criticize either or both sides of this mess? Or is it wrong?
24
25 Our view of human conflict, of human mud we see mixed in with all things, as applicable to this
26 current example and all before it, we offer.
27
28 Too many humans have availed themselves of current floods of information with a view to
29 excluding the unpleasant. Humans have always sought to exclude what is unpleasant. Your life
30 aboard Earth is pursuit of good avoidance of bad.
31
32 Who determines for you but you, what bad means to you?
33
34 At the point in life when such streetcorner is approached, one may continue straight, turn left or
35 right or even risk a violent encounter with a vehicle, a meeting surely to cause more harm to
36 you than the conveyance which strikes your body.
37
38 The many of you venture into the street either unaware or sometimes defiantly unprepared,
39 convinced that your preferences shall automatically accompany you and extend into the
40 roadway, the relative safety of the sidewalk, the pavement or the lay-by. These mental shields

41 are labeled trigger warnings, divisiveness and inclusion. The proper human English words for
42 these concepts are, respectively, intolerance, intolerance and intolerance.

43
44 Humans have attempted to extend, insert & inject physical fear into mental fear. In Heaven,
45 these two things, mental & physical fear, are the same thus almost completely non-existent, but
46 on Earth operate in the case of every human and animal.

47
48 Mental fears are now hatched without physical risk; this is done to manipulate you.

49
50 Your reactions to nearly all things you encounter, as participant or observer, are learned. Just as
51 you cannot remember the process of learning to understand the spoken word directed at you,
52 but you remember you always have, most learning of reactions is likewise not recalled.

53
54 From the set of reactions humans teach, learn and offer to one another with regularity, your
55 manipulators massage their message to specific purpose, objective & ends, which is to control
56 you to their benefit.

57
58 A recent USA president declared that for one new regulation to be imposed, the price would be
59 elimination of two existing.

60
61 The price you should charge for giving belief to new information, is your doubt of two others.

62
63 When an appointed official working for an elected one offers, orders or commands a thing,
64 obedience should be considered only after picking apart two seemingly unrelated items for
65 possible inconsistencies, even if none appear.

66
67 Allow us an example, relevant to residents of the European Union but representative of all
68 humans.

69
70 A significant former member nation, Great Britain, recently quit. If you remember the event,
71 you recall the forecasts of effects to follow. Have these predictions played out as offered six and
72 seven years ago?

73
74 The forty fifth USA president was to destroy his nation, as a tool of the Russian Federation.
75 Removed from office in an electoral coup d'état, the ruination has come afterwards, if the
76 current condition of the nation is compared to six and seven years ago. Reconsider the
77 predictions offered seven and eight years ago, against subsequent evidence.

78
79 What you like, prefer and enjoy are good, these amount to what you like, prefer and enjoy.
80 What about what another person likes, prefers and enjoys if that is not your liking, preference
81 and enjoyment?

82
83 The Communist Manipulation Model of class conflict was used to good effect to launder the
84 minds of the Russian population, which was at the time poised to embark upon an economic
85 expansion similar to what had recently developed and continued flourishing in the Uniteds,
86 both States and Kingdom. Half a century later, the same putrid recipe was used again in the
87 Caribbean to dismantle a nation which had already traveled well into its development and
88 emergence as an economic success.

89

90 The absence of social classes in the USA, weighed against other ripe opportunities such as the
91 aforementioned Russia but also China and several southeast Asian nations, turned manipulators
92 away from the big prize, for a time.

93

94 Their gaze is fixed now solidly upon it and has been for decades. The slow growth of mould,
95 bacteria and slime produced, are now rising to the surface, to both the delight and dismay of
96 many people.

97

98 The method is more insidious, slow acting yet more effective also.

99

100 The engineers of this process are ignorant of the end to come for their experiment and must be,
101 in order for the process to remain effective and vibrant, which it most certainly is.

102

103 The masters of said social engineers are well aware of what is happening, the beginnings of The
104 Shift now underway. Powerless are they to alter what shall come, truly fearful are they, over the
105 looming loss of position, power and control.

106

107 Their drugs and paraphernalia are about to be taken away; knowing this end will come has
108 caused the hidden, controlling powers to increase consumption of their narcotic, not attempt to
109 wean themselves off their mental thus physical dependence upon it.

110

111 Awareness lifts. You are risen.

112

113 Be well one and all, and do return.”
